

# "Merit System" Suits

Most men want to make their money go as far as possible. When you buy a suit of clothes you want style, you want correct fabrics and colors. Then you look for wear, the kind that does not "shine." You look for a material that "holds"—not for a few days, but until a change in style. You want a suit that is "built" by master workman of established reputation who cannot afford to jeopardize their business with indifference work and values.

We solicit your careful inspection of our recent arrivals in Spring and Summer two and three-piece suits. The showing includes diagonals and mild stripes, blue and black French serges, and novelty weaves. We are offering these at figures ranging from

## \$8.00 to \$18.00

### And Don't Worry About the Fit

We handle the "American Gentlemen" Pants and "Pony Boy" Suits—also made under the "Merit System." Every one of these garments sold has made friends for us in our clothing department. We have built up a generous patronage in this section, by offering to our patrons only such merchandise as we can personally recommend and guarantee.

We have all confidence in the value of "Merit System" Clothes. They will clinch our claims on every feature—try 'em and see.

### CURIOUS WORK OF PENANCE

Ancient Buddhist of Japan Writes  
128,000 Words on Piece of Paper  
13 by 7 1/2 inches.

For some time there has been shown in San Francisco a piece of paper 13 inches by 7 1/2 inches, on which there are written 128,000 words. This writing is the work of Kobo Taisai, a Buddhist of Japan, who lived 1,100 years ago. Before his time his countrymen used only Chinese characters in writing and he evolved the idea of the Japanese alphabet.

The writing on the paper is so fine that a microscope has to be used to decipher the intricate Japanese characters. It is an exact copy of eight books of the Buddhist Bible, and was written by the author as a sort of penance to purify his spirit. It is the property of a descendant of the writer, and has passed as a sacred heirloom from father to son for a thousand years. Every precaution has been taken to insure the safety of the document. In a case of white wood is a beautiful lacquered box wrapped in green silk. Within the lacquered box is another made of a very light porous wood that is extensively used in the manufacture of cabinets in which to store treasures. In this box is the precious writing.

"Dad" and "daddy" were well known in this country in the sixteenth century; "papa" did not come in, borrowed from abroad, until the seventeenth century was well advanced. Florio, at the end of the former century, defined the Italian "pappa" as "the first word that children are taught to call their father, as ours say 'dad,' 'daddy' or 'bab.' " "Dad" seems to be the commoner to mankind of the two. Nausicaa in the "Odyssey" calls her father "pappa philo," dear papa; but Greek has "tata" also, and Welsh has "tat," and Irish "dada."

Uplifting Power of the Press.  
"It (the press) lifts us out of the  
local rut and gives us the broader  
spirit and intelligence of common  
citizens of a great country. Still further,  
it extends our sympathies beyond  
natural bounds and gives us the feel-  
ing of human solidarity."—Dr. Albert  
Shaw.
